

JONATHAN BEN-YVIAUD SANON

OBJECTIVE

Motivated student in Computer Programming at La Cité Collégiale, currently developing skills in software and web development. I enjoy learning new technologies and building simple, functional applications. I'm looking for an opportunity to apply what I've learned, contribute to a team, and grow as a developer.

Institut De Technologies Appliquées Des Cayes

September 2018 – July 2021 (Completed)

Computer programming – Diploma

CERTIFICATION

Cisco Networking Academy

July 26th, 2021 - CCNAv7: Introduction to Networks

EXPERIENCE

I'm currently seeking my first opportunity in the field of software development. While I don't yet have professional experience in tech, my background in customer service and public safety has helped me develop strong communication skills, a sense of responsibility, and attention to detail—qualities I believe are valuable in any team. You can find a selection of my academic and personal projects in my portfolio.

Ottawa Safety Council

May 2024 – Now
