## Professional Summary

Bilingual Junior Developer passionate about crafting efficient and maintainable applications. Hands-on experience with full-stack web and desktop development using modern technologies like Vue.js, Node.js, C#, and SwiftUI. Strong foundation in database design, networking, and clean architecture.

## Technical Skills

Languages: JavaScript, C#, SQL, Swift, HTML, CSS

Frameworks: Vue.js, Node.js, WPF, React.js

Databases: SQLite, SQL Server, MongoDB

Tools: Git, GitHub, Power BI, Postman

Concepts: REST APIs, MVC/MVVM, Agile Development

## Key Projects

Le Banquier (C#, WPF)

Developed a desktop game inspired by 'Deal or No Deal' using MVVM architecture, animations, and services. Adopted by the student association for events and showcases.

My Biblio App (React, Node.js, SQL)

Built a full-stack library management system with authentication, reservations, and admin dashboard.

Tijwet (HTML, CSS, JavaScript)

Created a web platform featuring multiple interactive mini-games. Deployed and maintained at tijwet.com.

Green Data (HTML, CSS, JavaScript, SQL, Power BI)

Designed a data visualization dashboard showing climate metrics across Canada using Power BI integration.

## Education

Diploma in Computer Programming — La Cité Collégiale

Letter of completion received 2025 | Official graduation in 2026

## Certifications

- CCNA: Introduction to Networks (Cisco Networking Academy)
- AI Pair Programming with GitHub Copilot (LinkedIn)
- Emergency First Aid & CPR/AED Level C (valid until Nov 2026)

## Experience

French & Coding AI Trainer — Outlier AI (Remote, 2024–2025)

Tested and corrected AI outputs in French and programming contexts to improve model reliability.

Sales Representative — Kognitive Sales Solutions (Ottawa, 2025–Present)

Developed persuasive communication and client interaction skills while promoting financial products.
